
Do you perform cosmetic surgery?

The Cosmetic Surgery Certification Scheme has been refreshed to better suit your needs.

The scheme, which has been redeveloped by and is supported by all four surgical Royal Colleges alongside the relevant specialty associations, will provide you with accreditation for key competencies, demonstrating your expertise to patients and ultimately helping to make the cosmetic surgery industry safer.

The scheme is now more affordable than ever, with the online certification application fee only **£650**. Applicants will be required to attend a mandatory 'Professional Behaviours in Aesthetic Surgery' course, for which there will be an additional cost.

The refreshed scheme also provides a new intercollegiate, user-friendly and time-saving application portal where you are able to:

-  Access improved application guidelines and resources;
-  Apply for multiple certificates in a single application, or a single certificate that covers all ten areas;
-  Submit evidence flexibly and in your own time.

How to get certified

Certification is open to all surgeons who are on the GMC specialist register, perform cosmetic surgery and are in a relevant surgical specialty. There are ten available areas of certification. To gain certification, simply:

1. Submit your application and accompanying evidence via our online portal: www.certify-cosmeticsurgery.org.uk
2. Attend our new virtual 'Professional Behaviours in Aesthetic Surgery' course (**£475**) — *contact us for more information.*

Successful applicants will be added to a public list of certified surgeons and receive a certification certificate.
